Stage 2 requirements

The planning documents must be uploaded as a single archive file(.zip) called Documents.zip. This must contain only PDF documents.

You must submit your UML in the form of a single project as a single archive file (.zip) generated by Papyrus, using the file name Yuconz.zip.

If you have updated the use case scenarios then they must be submitted as part of the previous item – Documents.zip.

You must submit a separate PDF file Criteria.pdf that describes how you believe you have fulfilled the assessment criteria for this stage (see above). This document does not need to be longer than one side of A4.

Stage 2 Tasks (Deadline: Monday 2nd Feb)

Develop plans for how you will organise your group and schedule its effort over the coming term given the timetable of the assessment's stages

Develop plans for how you will use your group's gitlab space to coordinate your work and track issues as they arise;

Develop plans for how you will ensure quality and consistency in everything the group does or produces;

Review all documents to see if they meet requirements (finalise work for submission)

Pointers

When resolving merges we have to make sure that Word Documents are not named the same

We have a contingency plan if someone accidentally is working in the master branch. That plan is having a master branch copy so that our work is backed up if this situation arises.
